## Trees

I think that I shall never see  
a poem lovely as a tree.

A tree whose hungry mouth is prest  
Against the earth's sweet flowing breast;

A tree that looks at God all day,  
And lifts her leafy arms to pray;

A tree that may in Summer wear  
A nest of robins in her hair;

Upon whose bosom snow has lain;  
Who intimately lives with rain.

Poems are made by fools like me,  
But only God can make a tree.

(Born December 6, 1886; killed in action near  
Ourcy on July 30, 1918)

## 5 Things About: Butterflies

- Butterflies can be found fluttering around every continent except Antarctica.
- The insects feed on nectar and pollen from flowers.
- They taste with their feet—that's where their taste receptors are located.
- A butterfly's two eyes have 6,000 lenses each.
- Their wings are actually transparent and covered with thousands of tiny scales. Light reflecting off the scales creates the colors and patterns we see.

## Appreciate Our Planet

In celebration of Earth Day on April 22, spend some time enjoying the beautiful sights of spring.
