Spring Is Here

Equinox is when day and night are the same length. This happens twice a year, in September and in March. The vernal equinox, which this year is on March 20, is considered the first day of spring.

Word for March: Growth

March is a season of growth and renewal. Green blades of grass push through the ground, and green buds of leaves sprout on the trees. NO matter how old we may get, we never stop growing! This March, consider ways you can grow your mind, heart, health and happiness.
