

FUN FACTS ABOUT HALLOWEEN

Sugar rationing during World War II halted trick-or-treating. After the rationing ended, the tradition grew into what we're familiar with today. Candy companies started launching advertising campaigns to capitalize on the ritual.

Now Halloween is the second largest commercial holiday in the country.

It comes after only Christmas. Consumers spent approximately \$9 billion (!) on Halloween last year, according to the National Retail Federation (NRF). That's A LOT of candy and costumes.

Americans spend about \$86.27 on Halloween every year.

That includes Halloween decorations, candy, costumes, and cards by the NRF definition. (If you're curious how that compares to Christmas, Americans spent an average of \$1,048 on winter holidays in 2019.)

This year will be the first Halloween in 19 years to have a full moon.

Full moons on Halloween are pretty rare. The last time there was a full moon on October 31, it was 2001 — and before that it was 1955.

The next one won't occur until 2039. In fact, the 21st century will only see six full moons on October 31: 2001, 2020, 2039, 2058, 2077 and 2096.

Illinois produces up to five times more pumpkins than any other state.

The Land of Lincoln has more than 15,000 acres devoted to gourd growing, according to the United States Department of Agriculture. Those Illinois farms typically grow more than 500 million pounds of pumpkins annually.

WHEN WITCHES GO RIDING,
and black cats are seen,
THE MOON LAUGHS AND WHISPERS,
Tis near Halloween.

Halloween Cats

These are a few pictures from last year's trick or treating at Carrington Court. Unfortunately, this year we will not be able to have our annual event because of the Covid-19 virus. I hope these pictures put a smile on your face and as we all move forward; let us all be hopeful that next year we can continue our annual tradition of trick and treating here at Carrington Court.

Home is where you hang your broom

If the broom fits, ride it!

Happy Birthday!
