

November 2, 1947 - The first and only flight of Howard Hughes' "Spruce Goose" flying boat occurred in Long Beach Harbor, California. It flew about a mile at an altitude of 70 feet. Costing \$25 million, the 200-ton plywood eight-engine Hercules was the world's largest airplane, designed, built and flown by Hughes. It later became a tourist attraction alongside the Queen Mary ship at Long Beach and has since been moved to Oregon.

From 1947 until his death in 1976, he kept the Spruce Goose prototype ready for flight in an enormous, climate-controlled hangar at a cost of \$1 million per year. Today, the Spruce Goose is housed at the Evergreen Aviation Museum in McMinnville, Oregon.

VETERANS DAY
 November 11

November 2021

GRATITUDE

The quality of being thankful; readiness to show appreciation for and to return kindness.

In the month of November let us all remember to display our gratitude openly and without hesitation in our everyday lives for everyone whom is a part of our life.

Let us pay tribute to all the veterans that have served the United States and particularly those that reside at Carrington Court.

Happy Birthday!

Jeane L. - 1st Wanda H. - 13th
 Vicki C. - 12th Dorothy M. - 28th
