

Fun and Interesting Facts about Television

- The word "Television" was coined in 1900 by Russian scientist Constantin Perskyi.
- First American television station started working in 1928, and BBC transmission began in 1930.
- Television became widely popular after the end of World War II. Over 1 million American homes had television in 1948.
- 1960s brought great expansion of television. First TV satellite was launched in 1962 and in 1969 over 600 million people watched moon landings live from their homes.
- Average American family watches TV for eight hours per day.
- Currently there is over 275 million television sets in the United States.
- Commercials were not always expensive. In 1941 20 seconds of prime-time air time was \$9. Today, prices can go up to \$2.7 million for 30 seconds in the Super Bowl half-time break.
- Some of the most watched serialized television programs of all time are M*A*S*H (top viewership 105.9 million), Cheers (80.4 million), Seinfeld (76.3 million), Friends (52.5 million) and Magnum P.I. (50.7 million).
- First broadcasted TV commercial lasted for 20 seconds in 1941 during the game between Brooklyn Dodgers and the Philadelphia Phillies, and was for a clock manufactured by Bulova Corporation.
- 99% of American homes own at least one television set, and 66% has at least three. More than half pay for cable.
- Americans annually watch around 250 billion hours of television.
- Average 65-year-old person sees over 2 million TV commercials during his life.
